1 Introduction

Note on Statistical Digest

This Statistical Digest only contains information about Guyana's public schools. The Ministry does not have comprehensive datasets on private schools to publish at this time.

Administration

Guyana is divided into eleven education districts. Ten of these districts correspond with the administrative and geographical regions of the country. Georgetown is a separate educational district.

The Chief Education Officer is the professional head of the education system. Deputy Chief Education Officers for Administration and Development support the CEO in overall administration and training. There are also four Assistant Chief Education Officers with functional responsibility for nursery, primary, secondary and technical education. Each Assistant Chief Education Officer functions at a national level within his/her sphere of responsibility.

The Principal Education Officer for Georgetown and the Regional Education Officers are responsible for monitoring and supervising all educational activities within their respective education districts. The teams for the administration of these departments include District Education Officers. The number and type of schools that fall within its boundaries, as well as its demographic make-up determine the number of District Education Officers assigned to a department.

Organization and Structure

The formal education system of Guyana begins at nursery education, proceeding upward through primary, secondary, technical/vocational education and training (TVET), and teacher training and university.

In addition, there are special schools, which cater for students who have physical, sensory or mental disabilities, and for others who are socially disadvantaged.

The Adult Education Association and the Institute of Distance and Continuing Education - an arm of the University of Guyana - provide continuing education.

Education Finance

The education system is primarily financed by central Government. Generally, formal education is available at all levels from nursery to secondary level at no tuition costs to students. However, fees are payable at the University.

2 Nursery Education

Nursery education consists of a two-year programme that is designed to provide young children with a learning environment which will facilitate their physical, social, emotional and intellectual development as well as the development of basic pre-concepts and desired attitudes to learning. Children are admitted to this level from age three years, six months and can be admitted at any time during the school year. Nursery education is delivered by discrete nursery schools and also in nursery classes within primary schools. The delivery of this level of education is monitored by the Assistant Chief Education Officer (Nursery).

Nursery schools are graded as follows: Grade A for 250+ students enrolled, Grade B for 150-429 students enrolled, Grade C for 60-149 students enrolled, Grade D for under 60 students enrolled.

3 Nursery Analysis

Institutions

There are 461 nursery institutions (schools and nursery classes in primary schools) gazetted in the 2013/14 academic year. This is an increase from the previous year of two institutions.

Enrolment

Nursery enrolment decreased from the previous year by 3%, to 25,220 pupils. Enrolment fell in all region but region 6. Region 9 reported a 9% reduction in pupils enrolled between 2012/13 and 2013/14.

Attendance

Average attendance across the country increased slightly from 2012/13 to 2013/14, to a 78% attendance rate amongst enrolled nursery school pupils. Across regions there was some change in attendance. Georgetown saw the greatest improvement in attendance rate, with a 7 percentage point increase from 77% attendance to 84%. There was a slight decline in attendance in regions 8 and 9.

Teachers

From 2012/13 to 2013/14, there was a 2% increase in teachers at this level, bringing the workforce to just under 1,700 teachers across Guyana. Region 6 recorded the highest (16%) increase in teachers at this level. Georgetown and region 4 are the only regions which saw declines in teacher numbers, each by 4%.

While there has been a small increase in the number of trained teachers, the percentage of teachers who are trained has stayed constant, at 70%. The four hinterland regions have the lowest percentage of trained teachers, and three of these (regions 7, 8, 9) reported a decline in the percentage of trained teachers between 2012/13 and 2013/14.

The national pupil-teacher ratio has fallen to 15 pupils per teacher.

4 Primary Education

Compulsory education begins at the Primary level. This level of education provides the foundation for further schooling and training. Pupils start from five years, six months, and continue for a period of six years, at the end of which they are eligible to write the National Grade Six Assessment (NGSA). Performance at this assessment determines allocation to secondary programmes offered. Education delivery is monitored by the Assistant Chief Education Officer (Primary).

Primary education is structured to provide literacy and numeracy skills for pupils within the system. The curriculum is organised on a subject basis - Mathematics, English, Social Studies and Science are the core subjects.

Primary schools are graded as follows: Grade A+ for 1000+ students enrolled, Grade A for 750-999 students enrolled, Grade B for 500-749 students enrolled, Grade C for 250-499 students enrolled, Grade D for 100-249 students enrolled, Grade E for under 99 students enrolled.

5 Primary Analysis

Institutions

There are 436 primary schools gazetted in the 2013/14 academic year.

Enrolment

Enrolment in primary school has fallen by 4% compared to the last academic year. Just under 82,000 pupils are enrolled in primary education. Most regions have experienced declines in enrolment. The greatest decline occurred in Georgetown (6%). Only regions 7 and 8 experienced increases in enrolment, and these were slight (1% and 3% respectively).

Attendance

Attendance amongst enrolled students has increased from 79% in 2012/13 to 81% in 2013/14. The greatest change in attendance on the previous year occurred in region 4, where attendance increased from 76% to 81%.

Teachers

Since 2012/13, the number of teachers across the country has stayed constant. Regions have seen changes in their teacher numbers over this year. For example, region 7 has reported having 16 (14%) more teachers in 2013/14 than 2012/13. Meanwhile, most regions saw declines in teacher numbers.

The percentage of trained teachers has stayed fairly constant since 2012/13, at 78% of teacher trained. Region 7 is the only region which saw a considerable decline (from 64% in 2012/13 to 54% in 2013/14).

6 Secondary Education

Secondary education is offered in general secondary and secondary departments of primary schools (commonly known as Primary tops), and is monitored by the Assistant Chief Education Officer (Secondary). Some secondary departments of primary schools offer a three-year programme geared to academic and pre-vocational programmes, while others offer a five-year programme, as such, students write the Caribbean Secondary Examination Certificate (CSEC) subjects. The programme includes the core subjects and varying pre-vocational subjects.

In the General Secondary Programme, students pursue a five-year programme in a wide range of subjects in Science, Technology, Engineering and the Arts. The programmes are a mix of academic and vocational programmes. Some of the pre-vocational programmes are offered in Practical Instruction Centres which provide specialist technical facilities for clusters of schools which do not have them. In 2008, the MOE introduced the Secondary Competency Certificate Programme (SCCP) to target students at the General Secondary level who are at risk of dropping out. This programme is implemented in grades 9 and 10 in 50 out of the 114 general secondary schools and practical instruction centres. SCCP students are required to undertake the core subjects (English, Mathematics, Integrated Science and Social Studies), along with a pre-vocational elective. On completion of the SCCP programme, they are provided with a certificate which enable them to access traditional technical-vocational institutions to further their studies. Other students who complete this programme opt to write CSEC. At the end of the five years of general secondary education, students write subjects to obtain the CSEC.

Senior Secondary Schools admit students to their sixth form who have gained at least five passes with high grades at CSEC. At the end of two years, these students sit the GCE Advanced Level and/or Caribbean Advanced Proficiency Examinations (CAPE).

Secondary schools are graded as follows: Grade A+ for 700+ students enrolled, Grade A for 550-699 students enrolled, Grade B for 400-549 students enrolled, Grade C for 250-399 students enrolled, Grade D for under 250 students enrolled.

7 Secondary Analysis

Institutions

In 2013/14, there are 266 secondary school institutions gazetted. 153 of these are the secondary departments of primary schools (primary tops), and 113 are general secondary schools.

Enrolment

Since the last academic year, the number of students enrolled in secondary school has fallen by 2,357 students (3%). This is disproportionately driven by a fall in enrolment in primary tops schools.

Most regions saw a decline in enrolment since last year. The greatest decline occurred in regions 2, 4, 5 and 6 (these regions experienced a 6-7% fall on the previous year). Region 10 saw a 16% increase on the previous year.

Attendance

Between 2012/13 and 2013/14, there was a small increase in average attendance across the nation. Primary tops attendance rose from 61% to 64%, and attendance at general secondary rose from 70% to 73%.

Teachers

In 2013/14 there are 3,753 teachers operating in the secondary education system, a 3% increase when compared to the previous academic year.

The percentage of trained teachers has stayed constant (67%).

8 Technical Education

Technical education and vocational training at the post-secondary level trains students above the age of 16 years in a range of technical and vocational areas.

Admission to these studies is generally once per year and most courses are two years in duration, leading to a technical certificate, technician diploma or certificate of proficiency.

10 Tertiary Education

Tertiary Education is offered by two public institutions. The Cyril Potter College of Education (CPCE) and the University of Guyana. CPCE offers initial teacher training at the nursery, primary and secondary (academic and pre-vocational) levels. These programmes are of two years duration at the end of which teachers gain an Associate Degree in Education or a Trained Teachers Certificate for those who have completed the course via distance mode.

The National Centre for Educational Resource Development (NCERD) complements the training done at CPCE, by providing continuous professional development for practicing teachers, through planning and implementing teacher education upgrading programmes.

The University of Guyana has two campuses that provides higher education which offers courses leading to graduate and post-graduate degrees, certificates and diplomas.

Admission to the university is based the attainment of passes in five subjects (grades 1 – 3) inclusive of Mathematics and English at the CSEC level for most programmes. An alternative is offered to mature applicants (a minimum of 26 years of age) who do not possess these qualifications but may be considered for admission provided they have a good general education, creditable work experience in the field and a passing grade at the University of Guyana's Entrance Examination. The Faculty will consider each application on its merit.
