1 Introduction

Note on Statistical Digest

This Statistical Digest only contains information about Guyana's public schools. The Ministry does not have comprehensive datasets on private schools to publish at this time.

Administration

Guyana is divided into eleven education districts. Ten of these districts correspond with the administrative and geographical regions of the country. Georgetown is a separate educational district.

The Chief Education Officer is the professional head of the education system. Deputy Chief Education Officers for Administration and Development support the CEO in overall administration and training. There are also four Assistant Chief Education Officers with functional responsibility for nursery, primary, secondary and technical education. Each Assistant Chief Education Officer functions at a national level within his/her sphere of responsibility.

The Principal Education Officer for Georgetown and the Regional Education Officers are responsible for monitoring and supervising all educational activities within their respective education districts. The teams for the administration of these departments include District Education Officers. The number and type of schools that fall within its boundaries, as well as its demographic make-up determine the number of District Education Officers assigned to a department.

Organization and Structure

The formal education system of Guyana begins at nursery education, proceeding upward through primary, secondary, technical/vocational education and training (TVET), and teacher training and university.

In addition, there are special schools, which cater for students who have physical, sensory or mental disabilities, and for others who are socially disadvantaged.

The Adult Education Association and the Institute of Distance and Continuing Education - an arm of the University of Guyana - provide continuing education.

Education Finance

The education system is primarily financed by central Government. Generally, formal education is available at all levels from nursery to secondary level at no tuition costs to students. However, fees are payable at the University.

2 Nursery Education

Nursery education consists of a two-year programme that is designed to provide young children with a learning environment which will facilitate their physical, social, emotional and intellectual development as well as the development of basic pre-concepts and desired attitudes to learning. Children are admitted to this level from age three years, six months and can be admitted at any time during the school year. Nursery education is delivered by discrete nursery schools and also in nursery classes within primary schools. The delivery of this level of education is monitored by the Assistant Chief Education Officer (Nursery).

Nursery schools are graded as follows: Grade A for 250+ students enrolled, Grade B for 150-429 students enrolled, Grade C for 60-149 students enrolled, Grade D for under 60 students enrolled.

3 Nursery Analysis

Enrolment

Nursery enrolment decreased from the previous year by 3%, to 26,574 pupils. Enrolment fell in all region but regions 7, 8 and 9. Regions 1 and 3 reported the largest reduction (9%) in pupils enrolled between 2015/16 and 2016/17.

Attendance

Average attendance across the country decreased slightly from 2015/16 to 2016/17, to a 77% attendance rate amongst enrolled nursery school pupils. Across regions there was some change in attendance. Region 4 saw the greatest change, with an 8 percentage point reduction from 78% attendance to 70%.

Teachers

From 2015/16 to 2016/17, there was a 3% increase in teachers at this level, bringing the workforce to 1,870 nursery teachers across Guyana. Region 7, 8 and 9 recorded the highest (9-10%) increases in teachers at this level.

The number of trained teachers stayed constant between 2015/16 to 2016/17, at 69%.

The national pupil-teacher ratio has fallen from 15 pupils per teacher in 2015/16, to 14 pupils per teacher in 2016/17.

4 Primary Education

Compulsory education begins at the Primary level. This level of education provides the foundation for further schooling and training. Pupils start from five years, six months, and continue for a period of six years, at the end of which they are eligible to write the National Grade Six Assessment (NGSA). Performance at this assessment determines allocation to secondary programmes offered. Education delivery is monitored by the Assistant Chief Education Officer (Primary).

Primary education is structured to provide literacy and numeracy skills for pupils within the system. The curriculum is organised on a subject basis - Mathematics, English, Social Studies and Science are the core subjects.

Primary schools are graded as follows: Grade A+ for 1000+ students enrolled, Grade A for 750-999 students enrolled, Grade B for 500-749 students enrolled, Grade C for 250-499 students enrolled, Grade D for 100-249 students enrolled, Grade E for under 99 students enrolled.

5 Primary Analysis

Enrolment

Enrolment in primary school has stayed broadly constant since the last academic year. In 2016/17, 80,326 pupils were enrolled in primary education. Several regions have experienced small changes in enrolment, the greatest being a 9% increase in region 9.

Attendance

Average national attendance amongst enrolled primary school pupils decreased slightly from 82% in 2015/16 to 79% in 2016/17. Across regions there was some change in attendance. Region 6 saw the greatest change, with an 15 percentage point reduction from 81% attendance to 66%.

Teachers

Since 2015/16, there has been little change in teachers (a 2% increase in teachers reported). The percentage of trained teachers has also stayed constant, at around 79%. At the primary level, the pupil-teacher ratio has stayed fairly constant at 21 pupils per teacher.

6 Secondary Education

Secondary education is offered in general secondary and secondary departments of primary schools (commonly known as Primary tops), and is monitored by the Assistant Chief Education Officer (Secondary). Some secondary departments of primary schools offer a three-year programme geared to academic and pre-vocational programmes, while others offer a five-year programme, as such, students write the Caribbean Secondary Examination Certificate (CSEC) subjects. The programme includes the core subjects and varying pre-vocational subjects.

In the General Secondary Programme, students pursue a five-year programme in a wide range of subjects in Science, Technology, Engineering and the Arts. The programmes are a mix of academic and vocational programmes. Some of the pre-vocational programmes are offered in Practical Instruction Centres which provide specialist technical facilities for clusters of schools which do not have them. In 2008, the MOE introduced the Secondary Competency Certificate Programme (SCCP) to target students at the General Secondary level who are at risk of dropping out. This programme is implemented in grades 9 and 10 in 50 out of the 114 general secondary schools and practical instruction centres. SCCP students are required to undertake the core subjects (English, Mathematics, Integrated Science and Social Studies), along with a pre-vocational elective. On completion of the SCCP programme, they are provided with a certificate which enable them to access traditional technical-vocational institutions to further their studies. Other students who complete this programme opt to write CSEC. At the end of the five years of general secondary education, students write subjects to obtain the CSEC.

Senior Secondary Schools admit students to their sixth form who have gained at least five passes with high grades at CSEC. At the end of two years, these students sit the GCE Advanced Level and/or Caribbean Advanced Proficiency Examinations (CAPE).

Secondary schools are graded as follows: Grade A+ for 700+ students enrolled, Grade A for 550-699 students enrolled, Grade B for 400-549 students enrolled, Grade C for 250-399 students enrolled, Grade D for under 250 students enrolled.

7 Secondary Analysis

Enrolment

Since the last academic year the number of students enrolled in secondary school has fallen by 2,823 students (4%).

Most regions saw a decline in enrolment since last year. The greatest decline occurred in Georgetown and region 8 (these regions experienced a 7-8% fall from the previous year).

Attendance

Between 2015/16 and 2016/17, there was a decline in average attendance across the nation. Primary tops attendance fell from 71% to 64%, and attendance at general secondary fell from 75% to 69%.

Teachers

In 2016/17 there are 3,975 teachers operating in the secondary education system, a 2% increase when compared to the previous academic year.

The percentage of trained teachers has stayed constant (69%).

Over the last year, the pupil-teacher ratio has fallen, from 17 pupils per teacher in 2015/16 to 16 pupils per teacher in 2016/17.

8 Technical Education

Technical education and vocational training at the post-secondary level trains students above the age of 16 years in a range of technical and vocational areas.

Admission to these studies is generally once per year and most courses are two years in duration, leading to a technical certificate, technician diploma or certificate of proficiency.

9 Special Education

Education for students with special educational needs is offered at six specialist institutions. These students mostly have sensory, motor or mental disabilities.

10 Tertiary Education

Tertiary Education is offered by two public institutions. The Cyril Potter College of Education (CPCE) and the University of Guyana. CPCE offers initial teacher training at the nursery, primary and secondary (academic and pre-vocational) levels. These programmes are of two years duration at the end of which teachers gain an Associate Degree in Education or a Trained Teachers Certificate for those who have completed the course via distance mode.

The National Centre for Educational Resource Development (NCERD) complements the training done at CPCE, by providing continuous professional development for practicing teachers, through planning and implementing teacher education upgrading programmes.

The University of Guyana has two campuses that provides higher education which offers courses leading to graduate and post-graduate degrees, certificates and diplomas.

Admission to the university is based the attainment of passes in five subjects (grades 1 – 3) inclusive of Mathematics and English at the CSEC level for most programmes. An alternative is offered to mature applicants (a minimum of 26 years of age) who do not possess these qualifications but may be considered for admission provided they have a good general education, creditable work experience in the field and a passing grade at the University of Guyana's Entrance Examination. The Faculty will consider each application on its merit.
