FACTS/TIPS: One hour has 60 minutes. The half of 60 is 30.
To show half past the hour the minute hand must be at six (6).

PRACTICE EXAMPLE:
Below we have a clock. This type of clock is known as an analog clock. On an analog clock, the short hand tells the hour and the long hand tells the minute. When the minute hand (long hand) is at 6 we say it’s half past the hour.

![Clock Image]

The minute hand (long hand) is at six (6), that means that it is half past the hour. That means that it is half past 3.

Your answer is half past 3.
ON YOUR OWN
Look at the clocks below. Write the time on the lines.

HOMEWORK
Can you make a clock? I am sure that you can. You can use paper plates and a tack. You can decide what to use for the clock hands. Get creative!!!
